The above table does not include records where the LGA was unknown or out of state.

The data contained within this table concerns family violence victims assisted at family violence specialist agencies for women and children (Specialist FV service clients)

The week before presenting LGA refers to the Local Government Area that a client was residing in (formally or informally), the week before presenting to a service.

If a client resided in different LGAs the week before presenting at separate periods of support in the same year, the client will be counted in each LGA.
